🚀 Professional Summary

Passionate and solution-focused Full Stack Developer (MERN) with ~2 years of hands-on experience in building dynamic web applications. Adept at crafting responsive UIs with React/Next.js and scalable backends with Node.js/Express/MongoDB. A strong team player with a flair for clean code, agile development, and delivering high-impact software solutions.

💻 Technical Skills

Frontend: JavaScript, React.js, Next.js, Redux, Ant Design, Tailwind CSS, Bootstrap, HTML5/CSS3

Backend: Node.js, Express.js, MongoDB, PostgreSQL

Others: React Query, REST APIs, Strapi CMS, Git, Jira, Bitbucket

🧠 Work Experience

● **Full Stack Developer | Techobix Pvt Ltd**

Jan 2025 – Present | Remote

● Spearheading two major projects using MERN & Nest.js stack

● Developed full-featured dashboards and scalable backends

● Ensured high performance by managing server deployment and optimization

● **Full Stack Developer | Logixsy Technologies**

Jan 2024 – July 2024

● Designed and built full-stack applications using React.js, Node.js, Express.js, MongoDB

● Created responsive UI and handled state management with Redux & React Query

● Deployed scalable backend services and integrated REST APIs

- **Full Stack Developer | 3CIX LTD**

Dec 2023 – Jan 2024

- Managed both frontend (React) and backend (Node/Express/Mongo/PostgreSQL)

- Integrated Strapi CMS for dynamic content management

- Delivered API-first architecture with well-documented endpoints

- **React.js Developer (Intern) | AKSA-SDS**

Aug 2022 – Nov 2022

- Built modular UI components and backend APIs using the MERN stack

- Gained hands-on experience with MongoDB schema design and Git-based version control

- **React.js Developer (Intern) | Infinity (NPD)**

Jan 2022 – Feb 2022

- Developed reusable components and enhanced UI/UX

- Integrated APIs and optimized app performance

🎓 Education

BS in Computer Science
PMAS Arid Agriculture University, Rawalpindi
2018 – 2022

🌟 Highlights

- Proficient in agile methodologies and collaborative development tools like Jira & Bitbucket

- Experienced in both greenfield projects and legacy codebase enhancements

- Proven ability to transform business requirements into reliable software solutions
