PROFILE

A passionate and results-driven MERN Stack Developer with over 3 years of experience in building dynamic, scalable websites and mobile applications using MongoDB, Express.js, React.js, and Node.js. Experienced in both front-end and back-end development, ensuring seamless integration of user interfaces and server-side logic. Proficient in working on projects independently and as part of a team in a software company environment. Dedicated to writing clean, efficient code and delivering exceptional user experiences. Continuously learning and adapting to emerging technologies to stay ahead in the rapidly evolving development landscape.

WORK EXPERIENCE

- Web Developer** 2021 - 2024
Kxoft Solution, Islamabad
 - Collaborated with designers to create clean, intuitive interfaces and user experiences.
 - Developed project concepts and ensured efficient workflow management.
 - Worked with senior developers to handle large, complex projects for corporate clients.
 - Managed both front-end and back-end development tasks for websites and server-side code.
 - Performed quality assurance tests to identify errors and optimize usability.
- Freelancing (Web & APP Dev)** 2022 - present
 - Developed custom web and app solutions using MERN stack technologies (MongoDB, Express, React, Node.js).
 - Designed responsive, high-performance interfaces and handled both front-end and back-end tasks.
 - Integrated APIs and managed server-side logic with Node.js and Express.
 - Conducted quality assurance, debugging, and performance optimization for all projects.
 - Collaborated with clients to ensure user-friendly designs and seamless functionality.
