ABOUT ME

Associate DevOps Engineer

I am an Associate **DevOps Engineer** with 1.5 years of experience working in a multinational software company. My focus is on improving deployment processes, automating workflows, and ensuring seamless collaboration between teams. I'm passionate about building efficient systems and optimizing infrastructure for scalability and reliability.

SKILLS

DEVOPS

Platform : AWS Cloud | RedHat Enterprise Linux | Linux | Version Control System (Git) | GitHub | GitLab CI/CD | Jenkins CI/CD | docker hub | Docker | Kubernetes | OpenShift | Stack Elastic (Elastic search, Kibana, Logstash, Filebeat, Metricbeat) | Prometheus / Grafana | MySQL | Databases: MongoDB, MySQL, MariaDB, Firebase

WORK EXPERIENCE

Evamp & Saanga Islamabad, Pakistan

Address Plot No, 324 Street 4, I-9/3 I 9/3 I-9, Islamabad, Islamabad Capital Territory 44000, 44000, Islamabad, Pakistan

DevOps Engineer

21/12/2023 – Current

As a DevOps Engineer in the Network Operations Team, I managed and maintained GitLab pipelines, ensured high application availability, and proactively troubleshooted and resolved system issues and glitches. I also provided L1/L2 level support, working closely with cross-functional teams to investigate and resolve complex incidents. Additionally, I optimized performance and deployment workflows using tools like Docker, Kubernetes, and monitoring solutions to enhance overall system reliability and efficiency.

Evamp & Saanga Islamabad, Pakistan

DevOps Internship

01/09/2023 – 30/11/2023

Completed a DevOps Internship, gaining experience in RedHat Linux, Docker, Kubernetes, GitLab, Prometheus, and Grafana, with a focus on containerization, orchestration, CI/CD, and monitoring.

Hazza institute of technology Islamabad, Pakistan

Cloud Computing Training

02/05/2023 – 03/08/2023

Gained foundational Linux administration skills, explored AWS (EC2, S3, RDS), worked with Git/GitHub for version control, practiced Docker for containerization, set up CI/CD pipelines with Jenkins, learned Kubernetes for orchestration, and automated tasks using Python scripting.

EDUCATION AND TRAINING

09/10/2017 – 05/08/2021 DG Khan, Pakistan

Bachelor of Science in Information Technology UNIVERSITY OF EDUCATION LAHORE (DG KHAN CAMPUS)

12/04/2015 – 12/09/2017 Jampur, Pakistan
